

What is an

API Gateway?

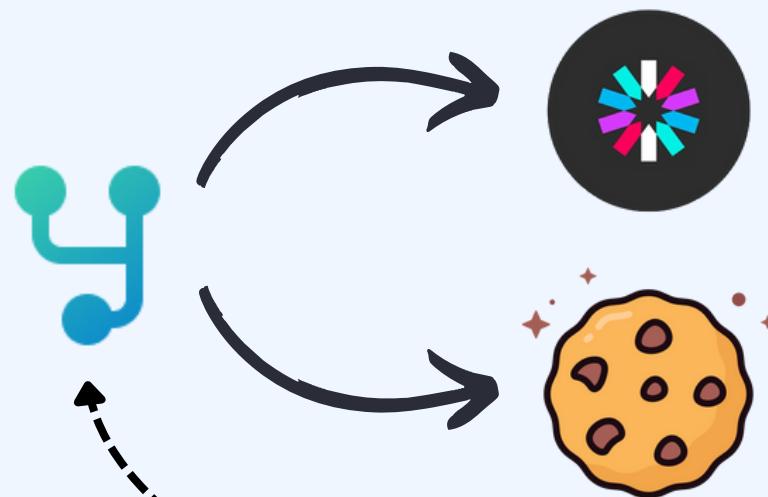

Entry point to backend APIs

Think of it as a **reverse proxy** /w added features

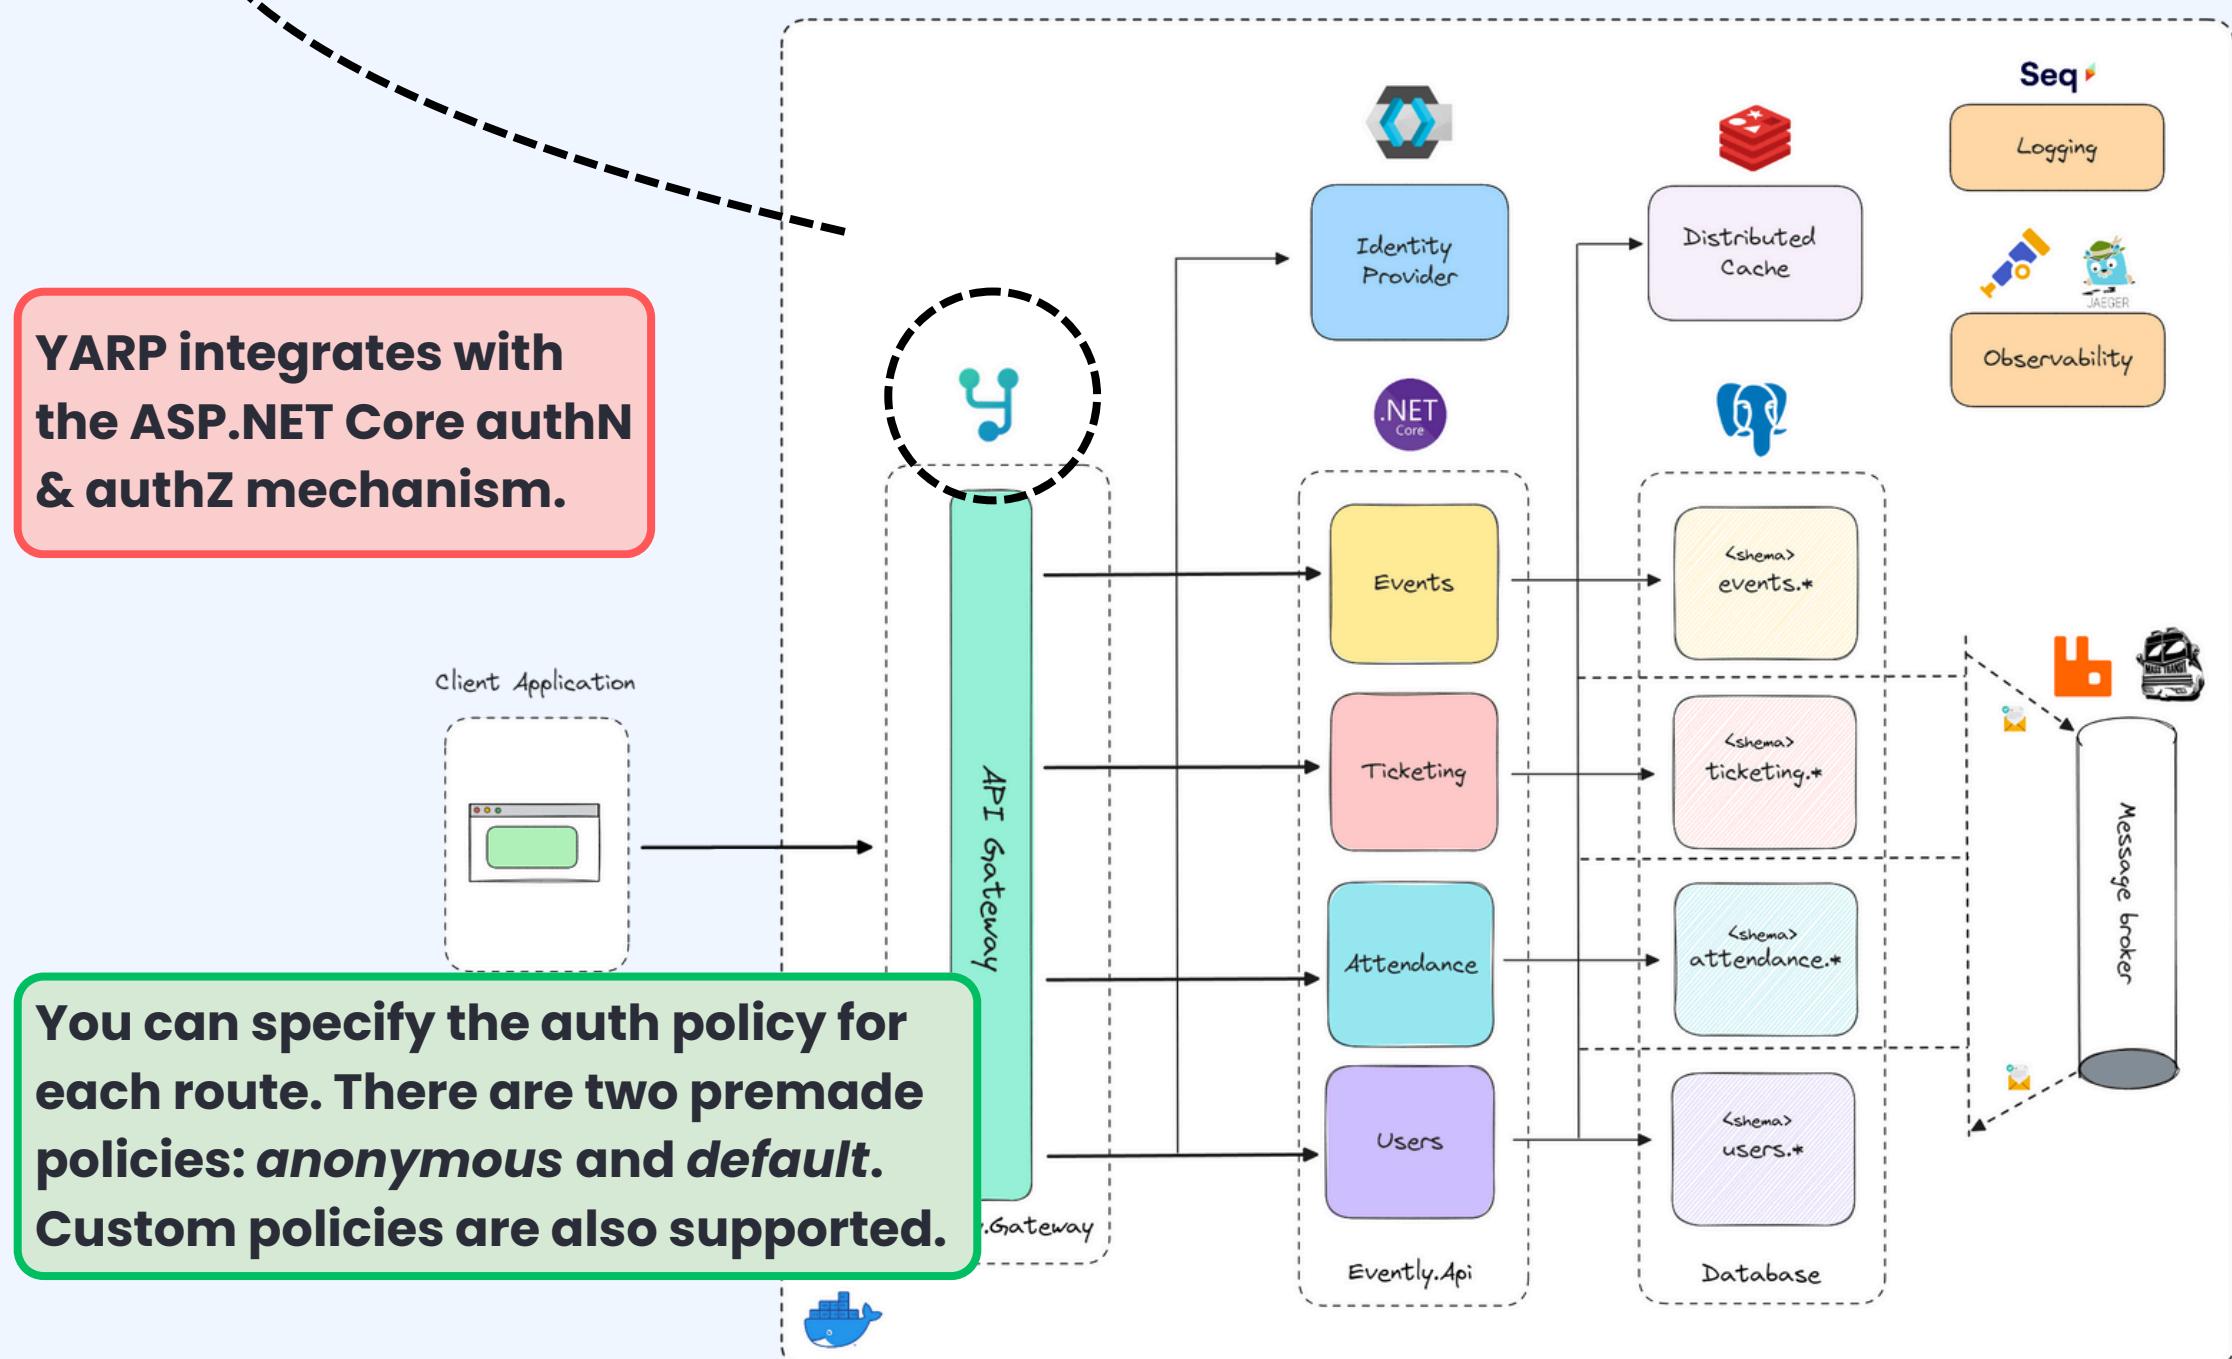

API Gateway Authentication

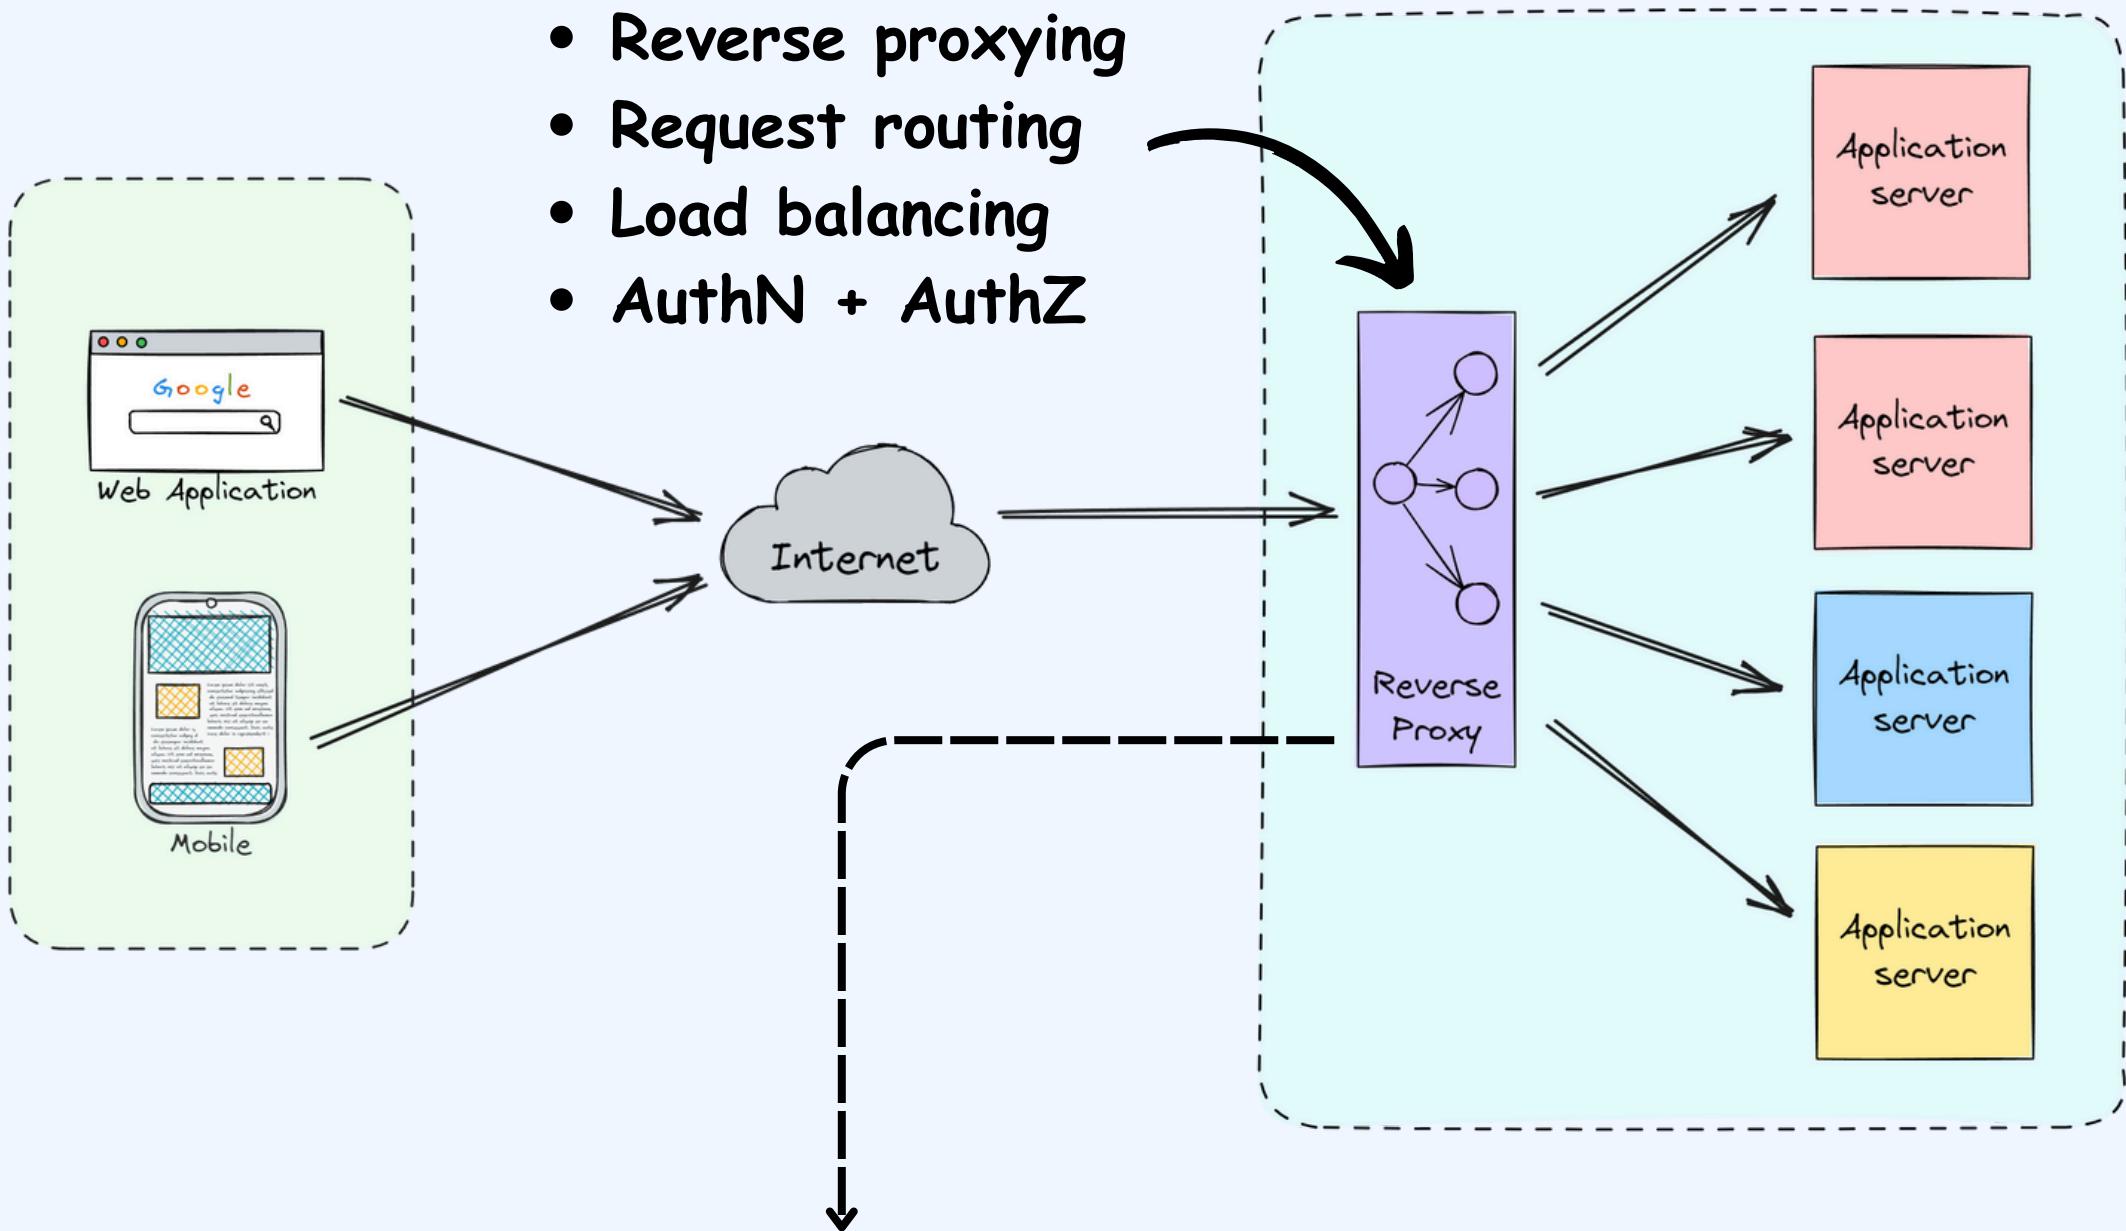

Token-based authentication

Cookie-based authentication

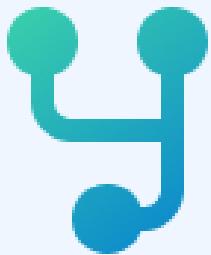

Popular API Gateways

Popular tools that can serve as **API Gateways**:

YARP

OCELOT

TRAEFIK

ENVOY

USEFUL? RESHARE

**It's the best thing you can do to
help others learn something new! :)**
